Old Business:

1. Andy, Libby, and Dick will discuss the meeting they had with Andrew Groff and the engineer from Greenman-Pederson who is producing plans for the bike path from North Adams through Williamstown. We hope that we can coordinate our plans for the Spruces land with their plans for the bike path as it goes through the Spruces property.

New Business:

1. To discuss what our committee needs to do over the rest of 2015 to find out what our town's citizens would like created on the Spruces' property. Also to discuss what we should do to begin the process of creating specific developmental plans and how to finance the early stages of this process when we will need private professionals to be hired.
