

Proactive Approaches to Estate Planning for Family Caregivers

As a family caregiver, you are already managing your loved one's daily needs. But have you considered what would happen if your loved one became unable to communicate their wishes? If this happens, then who will be making legal and financial decisions on their behalf?

By understanding the legal and financial obligations, you can create a comprehensive plan to help you prepare for life's uncertainties. Such a plan can empower you to make informed decisions and ensure your loved one's wishes are respected.

This webinar will explore the key aspects of legal and financial planning that family caregivers need to be aware of. This includes navigating complex documents like power of attorney, healthcare proxy, POLST, and revocable trusts.

September 10, 2025
11:00 am - 12 Noon
